Hello Nelson,

Greetings for the day!

Thank you for reaching out to Twilio Support.

We sincerely apologize for the delay in getting back to you. Due to an increased volume of inquiries, our response times have been longer than usual. We truly appreciate your patience and understanding during this time.

Your request will need to be handled by our WhatsApp onboarding team. I'm going to pass this ticket to them so they can assist you further. The team will get back to you with an update as soon as possible.

Thanks and regards,

Deepak

WhatsApp setup blocked - linked Facebook account was disabled

I am following up on my WhatsApp Business setup which is currently stuck at step 2 of 6 (phone number association).

A new issue has occurred: the Facebook/Meta account that was linked to my Twilio WhatsApp integration has been disabled by Facebook. Here is what happened:

1. My original Facebook account failed the WhatsApp Business verification through Twilio
2. I created a new Facebook account specifically for my business
3. I linked this new Facebook account to my Twilio WhatsApp integration
4. During Facebook's identity verification, my laptop camera produced a black screen video, causing the verification to fail
5. Facebook then disabled this new account permanently

As a result, my Twilio WhatsApp setup is now completely blocked because the associated Facebook account no longer exists.

I need your guidance on how to proceed. Specifically:

- Can Twilio unlink the disabled Facebook account from my WhatsApp integration?
- Can I link a different Facebook account (my original personal account) to complete the WhatsApp setup?
- Is there an alternative path to complete WhatsApp Business verification that doesn't require this specific Facebook account?

Thank you for your urgent help on this matter.

Hello,

This is Maria from the WhatsApp Onboarding team — I'll be assisting you further with your request.

To make sure we have the most up-to-date details, could you please share the following:

- Twilio Account SID
- WABA ID
- Phone Number
- Display Name

If you've already shared this information, Please let us know

Thank you!

Best regards,
Team Twilio

Dear Maria,

First, I sincerely apologize for the delayed responses to your recent emails. I want to be transparent with you: I've been overwhelmed by a series of cascading issues that have completely blocked my progress, and I'm reaching out now because I truly need your help to find a way forward.

Let me explain everything clearly.

Our Account Information:

- Twilio Account SID: ACb557b8186f09ccce3e6e5ed5948fe06c
- Company: NORTON GAUSS BONZINI SARL (Bonzinilabs)
- WhatsApp Business Account ID: 806816532042016
- Website: bonzinilabs.com

Problem 1 — I Cannot Access My Twilio Account

I am currently **locked out of my Twilio account**. When I try to log in with my email and password, Twilio sends a verification code via SMS — but **the code never arrives**. I have also tried the phone call option, but that doesn't work either. I have attempted this multiple times over several days.

This is why I have been unable to respond to your emails or provide the information you requested. I simply cannot access the dashboard.

I need: Your help to either reset my 2FA method, send the code to my email instead, or temporarily disable SMS verification so I can regain access to my account.

Problem 2 — Facebook Account Disabled

During the WhatsApp onboarding process, I created a second Facebook account specifically for my business. **Facebook disabled this account** after their automated video verification failed (the camera showed a black screen during the check). I filed an appeal, but I have not received any response.

I'm unsure which Facebook account is currently linked to our WhatsApp Business Account (806816532042016) — it could be this disabled one, which would explain why the setup is stuck.

Problem 3 — Facebook Advertising Access Restricted

On my original Facebook account, I now receive the error: **"Votre accès aux publicités est restreint"** (Your advertising access is restricted). This prevents me from creating a Meta Business Portfolio, which is required to complete the WhatsApp Business setup.

This restriction is likely a consequence of the second account being disabled — Facebook may have flagged both accounts.

Problem 4 — Phone Number

You previously identified that **+237 652 236 856** is already registered on WhatsApp. That is my personal number — I do **not** want to migrate it, as I would lose all my personal WhatsApp data.

I would like to **purchase a new Twilio virtual number** dedicated to our WhatsApp Business API instead.

Why This Matters

I am a young entrepreneur running a fintech platform that helps African importers pay Chinese suppliers. My clients depend on this service. Right now:

- My clients are frustrated because they don't receive notifications about their transactions
- My business is losing money every day this remains unresolved

- I have been stuck on **Step 2 of the WhatsApp setup** for weeks

I have put significant effort into solving each issue as it appeared, but every time I fix one thing, another problem blocks me. I am honestly exhausted and demoralized, and I don't know how to move forward without your help.

What I Need From Twilio:

1. **Account access** — Please help me regain access to my Twilio account (SMS verification codes are not arriving)
2. **Facebook/Meta escalation** — Since Twilio has a direct partnership with Meta, could you escalate the advertising restriction on my account so I can complete the Business Portfolio setup?
3. **New phone number** — Guide me on purchasing a Twilio virtual number for WhatsApp (to replace the +237 personal number)
4. **WhatsApp onboarding** — Once the above are resolved, help me complete Step 2 and finish the sender approval

I am available at any time and will respond immediately to any email. I truly appreciate your patience and any help you can provide.

Thank you, Maria.

Best regards, **Nelson Soh** — NORTON GAUSS BONZINI SARL bonzinilabs.com contact@bonzinilabs.com

Hi Nelson,

Thanks for the details, in order to help you first we need you to gain access to your Twilio account for this reason i will split this ticket and have a new one directed to our account admin team that will help you with this.

2. As we see the whatsapp business account (with ID 806816532042016 created with business portfolio Bonzinilabs) linked to Twilio is not restricted, or disabled. Can you please give us more details about this disablement?

3. We will not be able to help with Facebook ADS issues, as this is out of our scope within Twilio.

4. You can purchase a number within your Twilio Console, please attempt this after your access is restored.

Regards,

Maria

Team Twilio

Hello Nelson,

I hope you're doing well!

Were you able to review our last email, and did you have any questions or concerns about next

steps?

Please let us know if you have any additional questions or concerns.

Thanks,

Maria

Team Twilio
