Hi Nelson,

Thanks for reaching out.

Your request will need to be handled by our WhatsApp onboarding team. I'm going to pass this ticket to them so they can assist you further. The team will get back to you with an update as soon as possible.

Best Regards,

Miguel Garcia

Twilio Support

Apr 12, 2026, 11:02 AM PDT

I am setting up WhatsApp Business for my company Bonzinilabs through Twilio's integration.

Step 1 (partner account association) completed successfully. However, step 2 "Phone number association with Twilio, Inc" is blocked. The setup page displays: "Please contact Twilio, Inc to resolve the phone number association issue."

I cannot proceed with the remaining 4 steps until this is resolved.

Setup details:

- WhatsApp number : +237 652236856
- Business name displayed: Bonzinilabs
- Integration: Twilio, Inc
- Conversations used: 0 out of 250
- Steps completed: 1 out of 6

I have not modified any phone number settings. This is a fresh WhatsApp Business setup.

Could you please complete the phone number association on your end so I can proceed with the setup?

Hello Nelson,

Thank you for reaching out, and I am sorry to hear about the difficulties you have encountered while setting up your WhatsApp Business account.

This is Mary from the WhatsApp Onboarding Team, and I'll be assisting you further with your request.

I have checked your Twilio account (**SID: ACb557b8186f09ccce3e6e5ed5948fe06c**) and confirmed it is linked to the WhatsApp Business Account **Bonzinilabs (ID: 806816532042016)**.

However, the phone number **+237 652236856** has not been successfully added to this account. The number currently showing in your profile, **+1 555-924-8666**, is actually a Meta virtual number that was automatically assigned to your account when the "Use display name only" option was selected during the registration process.

Upon further investigation, our records indicate that the phone number **+237 652236856** is currently registered to another account on WhatsApp. Could you please confirm if this number is currently active on the WhatsApp mobile app (personal or business version) or if it is registered with another service provider?

To proceed with the association to Twilio, the number must be [deleted](#) from any existing WhatsApp

accounts first. Please let me know once you have verified this, and we can assist you with the next steps.

Best regards,

Mary

Apr 21, 2026, 2:46 AM PDT

Hello Nelson,

Thank you for providing such a detailed overview of your situation. I have reviewed your account and can provide the following updates and guidance:

1. Facebook Account and Phone Number Removal I have checked our system, and the previous phone numbers (+237 652 236 856 and the placeholder +1 555-924-8666) have been successfully removed from the request. Regarding your Facebook link, the WhatsApp Business Account (ID: 806816532042016) is linked to the Meta Business Manager where the WABA was originally created. Since the previous numbers are cleared, you may now proceed with the next steps.

2. Purchasing and Registering a New Number To move forward without affecting your personal WhatsApp data, please follow these steps:

- **Purchase a Number:** Go to the **Phone Numbers > Buy a Number** section in your Twilio Console. Ensure you select a number that supports **SMS and Voice** capabilities.
- **Register with WhatsApp:** Once you have the new number, navigate back to the **Messaging > Senders > WhatsApp Senders** section.
- **Submit for Review:** Initiate the registration again. When prompted, select your new Twilio number. This will allow you to complete "Step 2" in the onboarding process and submit the sender for approval under your desired display name.

Now that the previous numbers are removed, the system should allow you to input the new Twilio number. This will bypass the conflicts you previously experienced and ensure your personal account

remains untouched.

Please let me know once you have acquired the new number and submitted it for review so I can monitor the approval status for you.

Best regards,

Mary

Apr 19, 2026, 4:47 AM PDT

Dear Mary,

Thank you for your continued support with our WhatsApp onboarding. I'd like to give you a clear overview of where things stand on our end, as several issues have come up that I need your help resolving.

1. Facebook Account Situation

During the setup process, two Facebook accounts ended up linked to our Twilio/WhatsApp configuration:

Account 1 — My original personal Facebook account (the one I initially used to start the process)

Account 2 — A new Facebook Business account I created specifically for Bonzinilabs, which has since been disabled by Facebook (their automated video verification failed due to a camera issue, and my appeal is still pending)

I'm currently unsure which of these two Facebook accounts is actually connected to our Twilio WhatsApp Business Account (ID: 806816532042016). Could you please verify this on your end and let me know?

2. Phone Number Change — IMPORTANT

You previously identified that the number +237 652 236 856 is already registered on WhatsApp. That is correct — it is my personal WhatsApp number with years of conversations and data. I do not want to use this number for the business API, as migrating it would erase my personal WhatsApp history.

Instead, I would like to purchase a new dedicated Twilio virtual phone number (a Twilio-hosted number) to use exclusively for our WhatsApp Business API. This way, there is no conflict with any existing WhatsApp account.

My request: Could you please guide me on how to:

Purchase a new Twilio virtual number suitable for WhatsApp Business API

Register that new number with our WhatsApp Business Account (replacing +1 555-924-8666 and removing +237 652 236 856 from the request)

Complete the WhatsApp sender approval process with this new number

3. Current Blocker

Our WhatsApp setup has been stuck at Step 2 ("Submit your WhatsApp sender for review") in the Twilio console. I cannot proceed further until the phone number situation and Facebook account link are clarified.

Summary of what I need from your side:

Confirm which Facebook account is linked to our WhatsApp Business Account (806816532042016)

Guide me to purchase a new Twilio virtual number for WhatsApp

Help us move past Step 2 of the WhatsApp onboarding with the new number

I'm available to provide any additional information or documentation you may need. Thank you very much for your patience and help.

Best regards,

Nelson

Hello there,

I hope this message finds you well.

Just checking in on your request — we haven't received a response since our last message. If you're still facing any issues, we're here and ready to assist.

If everything has been resolved, we'd appreciate a quick confirmation so we can ensure your ticket is closed appropriately and continue improving our support.

To give you a bit more time, I'll keep this request open for the next 72 hours. If there's no update within that period, I'll go ahead and mark it as resolved. That said, you're always welcome to reach back out — replying to this message will automatically reopen the ticket.

Looking forward to hearing from you.

29 avril 2026 à 21:46

Dear Mary,

First, I sincerely apologize for the delayed responses to your recent emails. I want to be transparent with you: I've been overwhelmed by a series of cascading issues that have completely blocked my progress, and I'm reaching out now because I truly need your help to find a way forward.

Let me explain everything clearly.

Our Account Information:

- Twilio Account SID: ACb557b8186f09ccce3e6e5ed5948fe06c
- Company: NORTON GAUSS BONZINI SARL (Bonzinilabs)
- WhatsApp Business Account ID: 806816532042016
- Website: bonzinilabs.com

Problem 1 — I Cannot Access My Twilio Account

I am currently **locked out of my Twilio account**. When I try to log in with my email and password, Twilio sends a verification code via SMS — but **the code never arrives**. I have also tried the phone call option, but that doesn't work either. I have attempted this multiple times over several days.

This is why I have been unable to respond to your emails or provide the information you requested. I simply cannot access the dashboard.

I need: Your help to either reset my 2FA method, send the code to my email instead, or temporarily disable SMS verification so I can regain access to my account.

Problem 2 — Facebook Account Disabled

During the WhatsApp onboarding process, I created a second Facebook account specifically for my business. **Facebook disabled this account** after their automated video verification failed (the camera showed a black screen during the check). I filed an appeal, but I have not received any response.

I'm unsure which Facebook account is currently linked to our WhatsApp Business Account (806816532042016) — it could be this disabled one, which would explain why the setup is stuck.

Problem 3 — Facebook Advertising Access Restricted

On my original Facebook account, I now receive the error: **"Votre accès aux publicités est restreint"** (Your advertising access is restricted). This prevents me from creating a Meta Business Portfolio, which is required to complete the WhatsApp Business setup.

This restriction is likely a consequence of the second account being disabled — Facebook may have flagged both accounts.

Problem 4 — Phone Number

You previously identified that **+237 652 236 856** is already registered on WhatsApp. That is my personal number — I do **not** want to migrate it, as I would lose all my personal WhatsApp data.

I would like to **purchase a new Twilio virtual number** dedicated to our WhatsApp Business API instead.

Why This Matters

I am a young entrepreneur running a fintech platform that helps African importers pay Chinese suppliers. My clients depend on this service. Right now:

- My clients are frustrated because they don't receive notifications about their transactions
- My business is losing money every day this remains unresolved
- I have been stuck on **Step 2 of the WhatsApp setup** for weeks

I have put significant effort into solving each issue as it appeared, but every time I fix one thing, another problem blocks me. I am honestly exhausted and demoralized, and I don't know how to move forward without your help.

What I Need From Twilio:

1. **Account access** — Please help me regain access to my Twilio account (SMS verification codes are not arriving)
2. **Facebook/Meta escalation** — Since Twilio has a direct partnership with Meta, could you escalate the advertising restriction on my account so I can complete the Business Portfolio setup?
3. **New phone number** — Guide me on purchasing a Twilio virtual number for WhatsApp (to replace the +237 personal number)
4. **WhatsApp onboarding** — Once the above are resolved, help me complete Step 2 and finish the sender approval

I am available at any time and will respond immediately to any email. I truly appreciate your patience and any help you can provide.

Thank you, Mary.

Best regards, **Nelson Soh** — NORTON GAUSS BONZINI SARL bonzinilabs.com contact@bonzinilabs.com

Hello Nelson,

Thank you for getting back to us and for sharing such detailed information regarding the challenges you are facing.

We are currently reviewing the details of your account, including the Twilio access issues and the Meta restrictions you described. We will investigate the best path forward for your 2FA reset and the escalation of your Meta Business Portfolio status.

I will get back to you shortly with more information and specific instructions to help resolve these blockers.

Best regards,

Mary

Hi there,

I hope this message finds you well.

I wanted to take a moment to express our gratitude for your patience and understanding as we continue to look into your request.

Please rest assured that we are actively monitoring the situation and are committed to resolving it as swiftly as possible. Our team is currently investigating the matter further to ensure we provide you with the most accurate and effective solution.

We will keep you updated on our progress and notify you as soon as we have more information to share. Your time and patience are greatly appreciated, and we are here to support you every step of the way.

Thank you once again for your understanding and trust in us.

Regards,

Riegs
